# Plan for the plume from Tallawarra B power station

## Operating near Shellharbour Airport (YSHL)

### Expect turbulence below 1,700 ft AMSL

- Turbulence may exist when plant is operational.
- Warning lights will activate when plant is on.
- AFRU will broadcast message when plant is on.
- Plan your flight to avoid it.
- Refer to the AIP ERSA and Sydney VTC/VNC for the location.
